Regulations	For United States	UL Approved (UL 60950-1), Meets FCC Class B Requirements			
	For Canada	C-UL Approved (CSA 60950-1), Meets DOC Canada Class B Requirements			
	For Europe	Meets low voltage directive (EN60950-1, TÜV GS approved), (Meets EN55022 ClassB, EN55024, EN61000-3-2, EN61000-3-3)			
	For Asia/Oceania	IEC60950-1, Meets AS/NZS CISPR.22 Class B			
	For Korea	KC (safety : K60950-1, EMC : K00022, K00024)			
	For China	GB4943, GB9254, GB17625.1			
	For Russia	Gost R 60950-1, 51318.22, 51317.3.2./3.3.			

*1 : Effective pixels are more than 99.99%.
 *2 : Lamp life is defined as the average time span for the brightness of the lamp to be reduced by half. It does not refer to the warranty period for the lamp.
 *3 : This is the light output value (ANSI lumens) when the [PRESET] mode is set to [HIGH-BRIGHT]. If any other mode is selected as the [PRESET] mode, the light output value may drop slightly.
 *4 : Compliance with ISO21118-2005
 *5 : IEU Lite (for Windows) is required
 All specifications are subject to change without notice.

Portable Projector

M361X / M311X / M271X / M311W / M271W

- Environmentally friendly
- Greater ease-of-use
- Reduced total cost of ownership

An array of advanced functionality for environmentally friendly operation, with improved ease-of-use and installation.

Enhanced design and settings for greater ease-of-use

Designed from the user's perspective

The sliding lens cover temporarily stops video and audio when it is closed. In addition, the names of connectors are displayed on the top of the unit to make it easier to find their position on the back and the operation buttons have been made larger so they are easier to press. The power light is an easy-to-see blue LED so you can determine the power status in a glance.

1.7x zoom

The projector has a 1.7x zoom to cover a wide projection distance, so you can setup in various locations.

Enhanced functions for reduced power consumption and TCO

A complete lineup of eco functions

The projector has an Auto Eco Mode, which automatically adjusts the brightness to suit the projected image, and Eco Mode which is convenient when it is too bright during small screen projection. There are Eco buttons on the projector and remote control so you can more easily enable Eco Mode.

Interfaces for various functions

- The projector is equipped with an HDMI connector for projecting digital images in high quality, as well as wired/wireless(option*) LAN port.

* Please make sure to choose the appropriate wireless LAN UNIT according to the below list in use country or area.

- You can project computer images via USB cable without VGA cable, in this case you can control your PC mouse via projector's remote control.

- The projector also has a viewer function that lets you project data (JPEG) stored on USB memory, so you can give presentations without a computer.

Optional Wireless LAN unit

*NP02LM1 : United States, Canada, Mexico, Taiwan, Brazil, Colombia
 NP02LM2 : Europe, United Arab Emirates, Saudi Arabia, Oman, South Africa, Turkey, Ukraine, Egypt, Israel, Australia, New Zealand, Japan, Thailand, China, Hong Kong, Singapore, South Korea, Sri Lanka, Pakistan, Vietnam, India, Indonesia, Philippines, Peru, Chile, Argentina, Ecuador

NP02LM3 : Russia
 *In case of used in Malaysia, NP02LM2 have been certified but should be attached SIRIM certification sticker on goods. Please contact your partner in Malaysia before it use.

"No signal guidance" for easy cable connections

When the power of a device connected to the projector is switched on, the input signal is automatically detected and projected. what is more, when there is no signal being input, the "no signal guidance" lets you know in a glance where the cable should be inserted, so your setup runs smoothly.

Other functions

- WIU (Wireless Image Utility) can send images from your iOS devices such as iPad, iPhone and iPod touch, which enables the real-time images filmed with the iPad's internal camera, web pages searched for on the iPad or cloud files in combination with a file sharing application.
- Designed for a quiet noise level of 26 dB* (in Eco Mode) to prevent annoying operation noises during projection.
 *For the M311X, M271X and M271W. For the M361X and M311W, the quiet level is 28dB.
- Quick Power Off and Direct Power Off allow speedy cleanup and transfer after use
- Auto Power On automatically switches on the power when the power cord is connected or a signal is input at Comp.1
- Virtual Remote lets you use your computer to switch the power of the projector on and off and change the input signal
- Wall Colour Correction for vivid images even without a screen.
- Auto Vertical Keystone Correction

- Built-in monaural speaker with a powerful 10W output
- Front ventilation for effective heat dissipation
- The Carbon Meter lets you check the amount of CO2 you reduced by using Eco Mode
- Includes a remote with the control ID registration function, which allows operation of multiple projectors with a single remote.
- PC Based geometric correction and 3D reform function.
- DICOM Sim.
- Control capability.
 - Crestron RoomView® with emergency function.
 - AMX BEACON
 - HTTP server
 - PJLink

M271W
 2700 ANSI lumens WXGA 2.9kg

Greatly improved lamp lifetime

The time between lamp exchanges has been improved significantly. On the Eco Mode Off and Eco Mode, the times are 5,000 and 10,000hours, respectively.* The low power design cuts energy consumption in standby to 0.2 W (100-130 V AC) / 0.4 W (200-240 V AC), which helps with TCO reduction.

*For the M311X, M271X and M271W. For the M361X and M311X the times for Eco Mode Off and Eco Mode are 4,000 and 8,000 hours respectively

Large filter enhances protection against dust

The large double-layer filter improves protection against dust. If you exchange the filter when you exchange the lamp, there is no need for regular cleaning in Normal mode.
